REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The present invention pertains to a system and method for verifying that data is stored in a proper location. The present invention recites features such as (claim 1 being exemplary of the independent claims):

"...prior to performing an operation that stores the data block to the nonvolatile memory, a module other than the software application verifying that the address value contained within the data block correctly identifies the location in the nonvolatile memory into which the operation is going to store the data block; and performing the operation to store the data block to the nonvolatile memory only if the address value contained within the data block correctly identifies the desired location in the nonvolatile memory into which the operation is going to store the data block."

The prior arts of record fail to teach or anticipate this feature. As such, modification of the prior art of record can only be motivated by hindsight reasoning, or by changing the intended use and function of the prior art themselves. Therefore, it is not clear that one of ordinary skill in the art at the time of the invention would have made the necessary modifications to the prior art of record to encompass the limitations set forth in the present application. Moreover, none of the prior arts of record, taken either alone or in combination, anticipate nor render obvious the claimed inventions. Hence, claims 1-18 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cynthia Britt whose telephone number is 571-272-3815. The examiner can normally be reached on Monday - Thursday.
